

**DESTEK FİNANS FAKTORİNG
HİZMETLERİ A.Ş.
AND ITS SUBSIDIARY**

CONSOLIDATED FINANCIAL
STATEMENTS FOR THE YEAR
ENDED 31 DECEMBER 2008

To the Board of Directors of
DESTEK FINANS FAKTORING HİZMETLERİ A.Ş.
İstanbul

INDEPENDENT AUDITOR’S REPORT

We have audited the accompanying consolidated balance sheet of Destek Finans Faktoring Hizmetleri A.Ş. (“the Company”) and its subsidiary (together “the Group”) as of 31 December 2008 and the related consolidated statements of income, changes in shareholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Group’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of Destek Finans Faktoring Hizmetleri A.Ş. as of 31 December 2008, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Without qualifying our opinion, we draw attention to the following fact:

The firm's subsidiary merged with Destek Finansal Kiralama A.Ş., on 20 November 2008 whose %99.87 shares belongs to Destek Finans Faktoring Hizmetleri A.Ş.. The merger was realized in accordance with Turkish Trade Act's 451st and other decrees together with Corporate Tax Laws 18, 19 and 20 by means of dissolution without tax; transferring all rights, receivables, debt and liabilities to the Company. This operation between businesses under common management is accounted for in the accompanying financial statements with the method of merger.

DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT 31 DECEMBER 2008

1. ORGANIZATION AND OPERATIONS OF THE GROUP

Destek Finans Faktoring Hizmetleri A.Ş. (“the Company”) was incorporated in Istanbul on 18 July 1996, to provide factoring services to industrial and commercial firms. The Company is registered in Turkey.

The Company is engaged in recourse type of factoring transaction in which the Company does not assume the risk for the insolvency of the debtors. Accordingly, the Company may claim the repayment of the debts purchased from the customers in the event of debtors default.

Destek Vadeli İşlemler Aracılık A.Ş. has acquired the “Brokerage License for the Purchase and Sale of Derivative Instruments” from the Capital Markets Board in April 2008. On 12 September 2008 the firm’s membership to the “Turkish Derivatives Exchange” was accepted and initiated its activity on 17 September 2008. Subsequently; on 20 November 2008 the company merged with Destek Finansal Kiralama A.Ş.. Following the merger, the company no longer has the authorization for financial leasing.

Destek Vadeli İşlemler Aracılık A.Ş. is subsidiary of the Company and its financial statements is consolidated in the accompanying financial statements.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

a. Statement of compliance

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP).

b. Basis of Presentation of Financial Statements

The Company maintains its books of account and prepares its statutory financial statements in accordance with Turkish commercial practice and tax regulations. Such financial statements are prepared in Turkish Lira, the currency of the country the Company is incorporated in and in which it operates. The accompanying consolidated financial statements are based on these statutory records, with adjustments and reclassifications for the purpose of fair presentation in accordance with accounting principles generally accepted in the United States of America.

DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT 31 DECEMBER 2008

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS (cont'd)

c. Consolidation

Destek Vadeli İşlemler Aracılık A.Ş. (“Vadeli İşlemler”) is 98.24% owned subsidiary of the Company (31 December 2007: Destek Finansal Kiralama A.Ş. (“Destek Leasing”) and Destek Vadeli İşlemler Aracılık A.Ş. (“Vadeli İşlemler”) which are 99.87% and 96.97% owned subsidiaries of the Company respectively), and is included in the consolidated financial statements. All significant transactions and balances between parent and subsidiary company are eliminated upon consolidation.

Destek Leasing was established on 11 August 1997, and operates in leasing sector. The company is not operating since 2002 and merged at 20 November 2008 with Vadeli İşlemler.

Vadeli İşlemler is a brokerage company that provides services to the investors who make transactions in Turkish Derivative Exchange.

d. Principles of translation of financial statements into US Dollar

Remeasurement of local currency denominated financial statements into US Dollar has been performed in accordance with the provisions of SFAS No 52 “Foreign Currency Translation”, as they relate to hyperinflationary economies. The objective of this remeasurement process is to produce the same results that would have been reported if the accounting records had been kept in US Dollar.

SFAS 52 defines a hyperinflationary economy as one that has cumulative inflation of approximately 100% or more over a three-year period. On 22 November 2005, American Institute of Certified Public Accountants (AICPA) International Practices Task Force in its highlights memorandum declared that Turkey will come off its highly inflationary status as of the first period beginning after 15 December 2005. Based on these considerations SFAS 52 has not been applied to the accompanying financial statements as at 31 December 2006 and further.

As of the balance sheet date, the year end rate used for presentation purposes for balance sheet items is 1 USD = 1.5123 YTL (31 December 2007: 1 USD = 1.1647 YTL). For income statement, the average rate used for 2008 is 1 USD = 1.2976 YTL (2007: 1 USD = 1.3017 YTL).

3. SIGNIFICANT ACCOUNTING POLICIES

DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT 31 DECEMBER 2008

The significant accounting policies used in the preparation of the accompanying financial statements are as follows:

a. Business Combinations

The firm's subsidiary company merged with Destek Finansal Kiralama A.Ş., whose %99.87 shares belonged to Destek Finans Faktoring Hizmetleri A.Ş. on 20 November 2008. The merger was realized in accordance with Turkish Trade Act's 451st and other decrees together with Corporate Tax Laws 18th, 19th and 20th decrees by means of dissolution without liquidation excluding tax; transferring all rights, receivables, debt and liabilities to the Company. This operation between businesses under common control is accounted for under the parent's financial statements through the method of mergers.

b. Related parties

For the purpose of the accompanying consolidated financial statements, shareholders of the Group, the other companies owned by them, their directors and key management personnel and other companies in the group to which they are known to be related, are considered and referred to as related parties.

c. Income and Expense Recognition

Interest and other income and expenses are recognized on an accrual basis, except for fees and commissions for factoring services rendered which are recognized as income when received. Income and expenses are recognized at fair value or amortized cost basis. For the purposes of convenience, certain income and expenses are recognized on a straight-line basis where that does not materially differ from fair value or the amortized cost method.

d. Financial instruments

The term financial instruments include both financial assets and financial liabilities. Financial assets and financial liabilities are recognized on the Group's balance sheet when the Group becomes a party to the contractual provisions of the instrument. Financial instruments are fundamental to the Group's business and constitute the core element of its operations. The risks associated with financial instruments are significant component of the risks faced by the Group. Financial instruments create, modify or reduce the liquidity, credit and market risks of the Group's balance sheet.

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

**DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND
ITS SUBSIDIARY**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS AT 31 DECEMBER 2008**

d. Financial instruments (cont'd)

Cash and cash equivalents

Cash and all highly liquid investments with a maturity of three months or less at the date of purchase, including cash on hand, demand deposits and short-term time deposits, are classified in cash and cash equivalents.

Receivables

Receivables are measured at initial recognition at fair value, and are subsequently measured at amortized cost. Appropriate allowances for estimated irrecoverable amounts are recognized in profit or loss when there is objective evidence that the asset is impaired. The allowance recognized is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows at initial recognition.

Financial liabilities and equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities are set out below.

Funds borrowed

Bank loans and overdrafts are initially measured at fair value, and are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized over the term of the borrowings in accordance with the Group's accounting policy for borrowing costs.

Off balance sheet commitments and contingencies

The Group deals with off-balance sheet risk in the normal course of business such as letters of guarantee. The Group's exposure to credit losses arising from these instruments is represented by the contractual amount of those instruments.

**DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND
ITS SUBSIDIARY**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS AT 31 DECEMBER 2008**

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

d. Financial instruments (cont'd)

Fair value considerations

Fair value is the amount for which an asset could be exchanged or a liability settled, between knowledgeable willing parties in an arms length transaction. Fair value is best evidenced by a market price, being the amount obtainable from the sale or payable on the acquisition, of a financial instrument in an active market, if one exists.

Various financial instruments are accounted at amortized cost but disclosure is required of fair value for comparison purposes, wherever practicable.

For the financial assets and liabilities carried at amortized cost, the fair values are assumed not to differ significantly from cost as the profit shares applicable to those receivables are in line with the market rates due to the short-term nature of the items involved.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate that value.

Balances with banks: The carrying amount is a reasonable estimate of fair value.

Factoring, leasing receivables and advances to the customers: The major portion of the due from financing activities is short-term and has pre-determined interest rates that are not subject to fluctuation at short notice in accordance with the prevailing interest rates in the market. Therefore, the management believes that the fair values of due from financing activities do not materially differ from their respective book values.

Funds borrowed: Borrowings are initially recognized at cost. After initial recognition, all liabilities are subsequently measured at amortized cost.

e. Factoring Receivables and Payables

Factoring receivables are recognized at original factored receivable amount, which represents the fair value of consideration given, and subsequently remeasured at amortized cost less reserve for factoring receivable losses. Factoring payables are recognized at original factored amount less advances extended against factoring receivables, interest and factoring commissions charged, and then carried at amortized cost.

The allowance for doubtful receivables is based on management's evaluation of the receivables, including such factors as the volume type of receivable outstanding, collateral obtained, past experience and economic conditions. Bad debt is written off during the year in which they are identified.

**DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND
ITS SUBSIDIARY**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS AT 31 DECEMBER 2008**

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

e. Factoring Receivables and Payables (cont'd)

The factoring receivables of the Group are of a “with recourse” nature on which the Group does not assume the risk for the insolvency of the debtors. Accordingly, the Group may claim the repayment of the debts purchased from the customers in the event that the debtors default.

f. Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is charged so as to write off the cost or valuation of assets, other than land and properties under construction, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

g. Intangible Assets

Intangible assets are amortized on a straight-line basis over estimated useful lives.

h. Valuation of Long-Lived Assets

Assets that have an indefinite useful life are tested annually for impairment in accordance with SFAS No. 144 (Accounting for the Impairment or Disposal of Long-Lived Assets). An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

i. Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of return on the remaining balance of the liability. Finance charges are charged directly to profit or loss, unless they are directly attributable to qualifying assets.

**DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND
ITS SUBSIDIARY**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS AT 31 DECEMBER 2008**

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

j. Borrowing costs

All borrowing costs are recognized in profit or loss in the period in which they are incurred.

k. Provision

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that the Company will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

l. Taxation and deferred income taxes

Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements are calculated on a separate-entity basis.

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases which is used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

**DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND
ITS SUBSIDIARY**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS AT 31 DECEMBER 2008**

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

l. Taxation and deferred income taxes (cont'd)

Deferred tax (cont'd)

Such assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

m. Employment termination benefits

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Group. The total provision represents the vested benefit obligation as at the balance sheet date.

The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised actuarial gains and losses.

n. Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT 31 DECEMBER 2008

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

o. Use of Estimates

The financial statements of the Group are prepared in conformity with accounting principles generally accepted in the United States, which require the use of estimates, judgments, and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. Management believes that the accounting estimates employed are appropriate and the resulting balances are reasonable; however, due to the inherent uncertainties in making estimates actual results could differ from the original estimates, requiring adjustments to these balances in future periods.

p. Dividends

Dividends receivable are recognized as income in the period when they are declared and dividends payable are recognized as an appropriation of profit in the period in which they are declared.

r. Recent accounting pronouncements

SFAS 161

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (“SFAS 161”)—an amendment of FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (“SFAS 133”). SFAS 161 requires enhanced disclosures about an entity’s derivative and hedging activities and thereby improves the transparency of financial reporting. This Statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. This Statement encourages, but does not require, comparative disclosures for earlier periods at initial adoption.

SFAS 162

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (“SFAS 162”). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). SFAS 162 is effective 60 days following the SEC’s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The adoption of this standard did not have a material impact on the Company’s financial statements.

The maturity dates of time deposits of 2008 is 2 January 2009 (31 December 2007: 2 January 2008 and 18 January 2008).

5. FACTORING RECEIVABLES (NET)

	31 December 2008 <u>000 USD</u>	31 December 2007 <u>000 USD</u>
Factoring receivables	47,659	89,807
Doubtful receivables	5,193	2,973
Doubtful receivables provision(-)	(4,493)	(2,973)
	<u>48,359</u>	<u>89,807</u>

The allowance for doubtful receivables is based on management’s evaluation of the receivables, including such factors as the volume type of receivable outstanding, collateral obtained, past experience and economic conditions. Bad debt is written off during the year in which they are identified.

5. FACTORING RECEIVABLES (NET)

**DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND
ITS SUBSIDIARY**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS AT 31 DECEMBER 2008**

The collaterals received in relation to factoring receivables are as follows:

	2008 <u>000 USD</u>	2007 <u>000 USD</u>
Notes receivables	-	1,468
Mortgages	2,796	-
Pledges of assets	231	-
Other	781	-
	<u>3,808</u>	<u>1,468</u>

In evaluating the collectibility of factoring receivables, the Group considers any possible changes in the credit quality of factoring receivables from the initial date until the balance sheet date. There is no credit risk concentration as the Group has a diversified customer portfolio. The Group believes that there is no additional doubtful receivable provision required for factoring receivables other than those already included in the accompanying financial statements. All collaterals presented by nominal values.

Movements in the doubtful receivable provisions:

	2008 <u>000 USD</u>	2007 <u>000 USD</u>
Provision at the beginning of year	2,973	704
Translation gain/loss	(1,064)	164
Charge for the year	2,685	2,200
Collection	(101)	(95)
Provision at the end of year	<u>4,493</u>	<u>2,973</u>

The aging of doubtful receivables as of 31 December 2008 and 31 December 2007 are as follows:

	2008 <u>000 USD</u>	2007 <u>000 USD</u>
Up to 90 days	331	48
90 – 180 days	163	48
180 – 360 days	370	67
Over 360 days	4,329	2,810
	<u>5,193</u>	<u>2,973</u>

Corporate tax

The Group is subject to Turkish corporate taxes. Provision is made in the accompanying financial statements for the estimated charge based on the Group's results for the years and period.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

The effective rate of tax in 2008 is 20% (2007: 20%).

In Turkey, advance tax returns are filed on a quarterly basis. The advance corporate income tax rate in 2008 is 20% (2007: 20%).

Losses are allowed to be carried 5 years maximum to be deducted from the taxable profit of the following years. However, losses occurred cannot be deducted from the profit occurred in the prior years retroactively.

Tax losses can be carried forward for offsetting against future taxable income for up to 5 years. However, losses cannot be carried back for offsetting against profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. The Group files its tax returns until 25 April following the close of the accounting period to which they relate. The tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

ITS SUBSIDIARY**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT
31 DECEMBER 2008

13. TAXATION ON INCOME (cont'd)

Deferred tax

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising from the differences between its financial statements as reported for US GAAP purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for US GAAP and tax purposes and are calculated over accounts like retirement pay provision and provision for doubtful receivables. Deferred taxation is calculated at a rate of 20% (2007: 20%).

For calculation of deferred tax asset and liabilities, the rate of 20% (2007: 20%) is used.

14. PROVISION FOR EMPLOYMENT TERMINATION BENEFITS

The provision has been calculated by estimating the present value of the future probable obligation of the Group and its subsidiaries registered in Turkey arising from the retirement of employees. US GAAP requires actuarial valuation methods to be developed to estimate the enterprise's obligation under defined benefit plans. Accordingly the following actuarial assumptions were used in the calculation of the total liability:

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as at 31 December 2008, the provision has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees. The provisions at the respective balance sheet dates have been calculated assuming an annual inflation rate of 5.4% and a discount rate of 12%, resulting in a real discount rate of approximately 6.26%. (The provisions at 31 December 2007 have been calculated assuming an annual inflation rate of 5% and a discount rate of 11%, resulting in a real discount rate of approximately 5.71 %.)

20. RISK MANAGEMENT

**DESTEK FİNANS FAKTORİNG HİZMETLERİ A.Ş. AND
ITS SUBSIDIARY**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT
31 DECEMBER 2008

Credit Risk

The Group's credit risk is primarily attributable to its factoring receivables. Factoring receivables presented in the balance sheet are net of allowances for doubtful receivables, estimated by the Group's management based on prior experience and the current environment.

The concentration of the Group's domestic factoring and export factoring receivables to industry is as follows:

	31 December 2008 %	31 December 2007 %
Paper and paper products	3.19	7.19
Textile	21.35	12.74
Automotive	-	4.60
Nutrimet	8.33	11.63
Agricultural and forestry products & chemicals	18.59	16.47
Electrical equipment	0.96	3.82
Metal	4.15	8.81
Transportation	3.31	2.47
Construction	28.60	24.55
Pharmaceuticals	-	2.62
Turizm	2.92	-
Other	8.60	5.10
	<u>100.00</u>	<u>100.00</u>

Price Risk

The Group is exposed to exchange rate fluctuations between foreign currencies and Turkish Lira due to the nature of its business. Certain parts of the interest rates related to borrowings are based on market interest rates; therefore the Group is exposed to interest rate fluctuations on domestic and international markets. The Group manages the interest rate fluctuations by reflecting those changes to its customers.

Liquidity Risk

The Group is generally raising funds by liquidating its short term financial instruments such as collecting its receivables. The Group's proceedings from these instruments generally approximate their fair values.

20. RISK MANAGEMENT (cont'd)

Interest Rate Risk

The Group is exposed to interest rate risk either through the timing discordancy in its assets and liabilities that are going to mature or repriced. The Group manages this risk by matching the repricing of assets and liabilities through risk management strategies.

The below table summarizes the Group's exposure to interest rate risk on the basis of the remaining period at the balance sheet date to the repricing date:

31 December 2008	Up to 3 Months <u>000 USD</u>	3 to 12 Months <u>000 USD</u>	Over 1 Year <u>000 USD</u>	No Interest <u>000 USD</u>	Total <u>000 USD</u>
